

# 2004 index

If you collect *Computeractive*, you build up a great source of reference material. However, finding something in particular can be difficult, so our annual index is here to help, listing all the Workshops, features and products we've covered during the past year – issues 155 to 179, inclusive. The numbers after each listing refer to the page number and then the issue number.

For copies of back issues and binders to store them in, call 01858 438883. For subscriptions, call 01858 438870. All these issues will be available in a searchable, browsable format on *Computeractive's* seventh annual CD-ROM in March. See our Webstore ([www.webstore.computeractive.co.uk](http://www.webstore.computeractive.co.uk)) for more information.
