

Computer active

2006 index

If you collect *Computeractive*, you build up a great source of reference material. However, finding something in particular can be difficult, so our annual index is here to help, listing all the Workshops, features and products we've covered during the past year – issues 206 to 231, inclusive. The numbers after each listing refer to the page number and then the issue number.

For copies of back issues and subscriptions, call 0870 830 4971. All these issues will be available in a searchable, browsable format on *Computeractive's* ninth annual CD-ROM in March from www.computeractive-direct.co.uk.
